

JANOME

1200D Professional

Effortless operation with perfectly professional results

Exceptionally easy threading with Janome's new looper threading! Overall, effortless operation with perfectly professional results. This machine is a 3 in 1, overlocker, coverstitch and top cover hem. 20 pre programmed stitches including Auto Tension.

Top cover hem device

The new Janome 1200D has the ability to sew a 5mm or a 2.5mm top cover hem as well as a bottom cover hem simultaneously. This allows you to produce a true industrial style cover hem.

Various optional accessories to make creative sewing easy.

Program display panel

Simply select your sewing preference and the Janome 1200D thread tension system automatically adjusts the correct tension settings for you! This provides you comfort and confidence in knowing that you can attain perfect results with incredible ease.

Differential feed and stitch length dials

Conveniently located directly in front of the machine for easy access, setting and reading.
