Memory Craft 5200
Memory Craft 5200

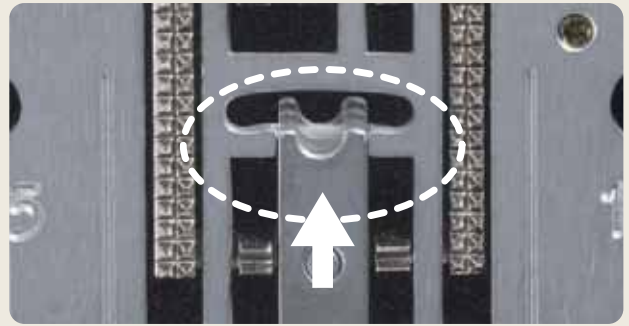

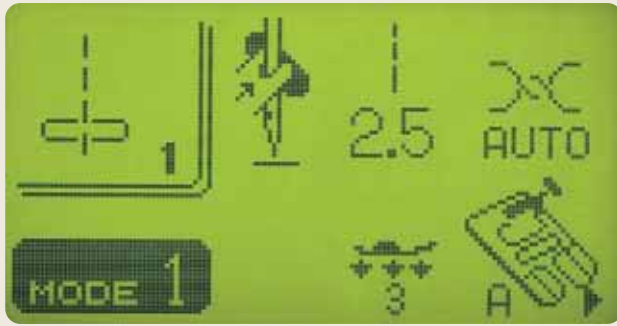

Sew many choices...

Automatic Plate Converter

Selecting straight stitch 1 through 3 automatically reduces the size of the needle hole to give you consistent sewing results. This unique design feature makes it easy to switch between straight and zig-zag stitches without switching the needle plate, especially for thin fabrics. Innovative engineering gives you a better way to produce beautiful sewing designs.

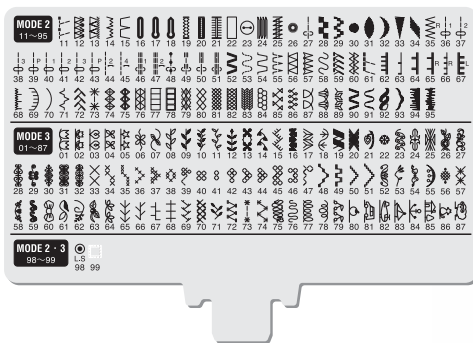

Create your own patterns

To make the most out of your sewing ideas, the MC5200 is packed with over 580 stitches and a wide variety of useful editing features. The flexibility provided will streamline your sewing projects and give you time to focus on personalising your creations.

Adjust the length and width, elongate and mirror stitches and combine into patterns.
