

# JANOME

## Accessory of the Month

May 2019

### Taping Guide Foot

Use this foot for attaching tape to the edge of fabrics. The guide can be adjusted to set the needle drop position and suit the tape width. You are able to stitch a tape up to 20mm in width, being a single fold tape; double-fold bias tape or fabric strip cut on the bias.

This Accessory of the Month has a bonus project for you to make using the Taping Guide Foot. Press the link to download the project .
