1	5inch x 5inch	Solid Black - Watermelon seeds
1m		Tilda-fix fusible web
2m	25mm	Black Bias Binding
		Black, White, Yellow Rasant Sewing Thread
		Variegated Wonderfil Thread to stitch applique - sample stitched with #TU30, #TU31, #TU07, #05, #03
		Janome Needle - to suit project
		Rotary Cutter, Quilting Ruler, Cutting Mat
		Pins, Scissors, light box to trace templates
Janome MC15000QM Machine with 'F' Satin Stitch Foot, 'VD + AD' Dual Feed Feet		

**NOTE: Requirements listed for one placemat**

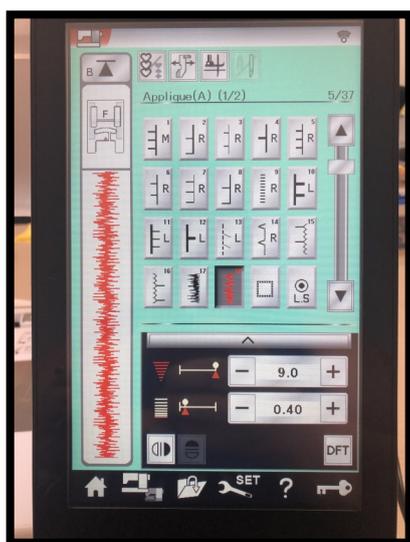

Create Your World

### INSTRUCTIONS

1. Using the attached template trace the applique shapes onto the tilda-fix fusible web
2. Cut out the shapes traced and heat set to the reverse side of the corresponding fabrics using a silicon pressing mat  
**NOTE: The silicon mat protects your iron and ironing board.**

3. Cut out the fruit shapes from the fabrics and remove the backing paper.
4. Place the watermelon piece onto the backing fabric in the bottom left corner starting with the flesh then the rind sections.
5. Using the iron and silicon mat press all the layers of the watermelon into place.

6. Thread the sewing machine with the variegated Wonderfil thread to stitch the watermelon flesh of the applique. (Sample shown is using #TU05.)

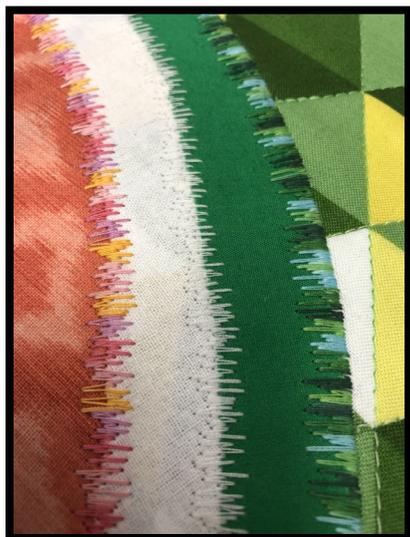

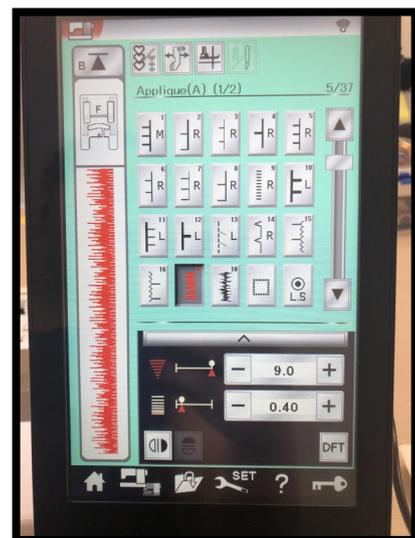

7. Select stitch #18 18 from the Applique menu and attach the 'F' Satin Stitch Foot to the sewing machine.

8. Position the curved edge of the watermelon flesh in the center of the foot with the help of the triangle marking. Stitch along the curve of the fabric from one side to the other.

9. Rethread the machine with the white thread. Using the same stitch, stitch along the white and green fabric.
10. Rethread the machine with green variegated thread. Change the stitch to Applique #17 (Sample shown is using Wonderfil #TU31.)

11. Line the foot with the green edge of the fabric and stitch along the outer edge of the watermelon rind.

12. Rethread the machine with the black rasant, select stitch #18 from the Applique menu and stitch around the watermelon seeds.

13. Press using the silicon mat the lemon sections into place on the background fabric.

**NOTE: The silicon mat protects your iron and ironing board.**

14. Rethread the machine with orange thread to stitch around the outer edge of the lemon. (Sample shown is using Wonderfil #TU07.)

15. Select Applique stitch #17 and stitch around the outer edge of the orange.

16. Select Applique stitch #18

17. Rethread the machine with yellow rasant and change the stitch width to 5.5. Stitch around the final pieces in the lemon applique.

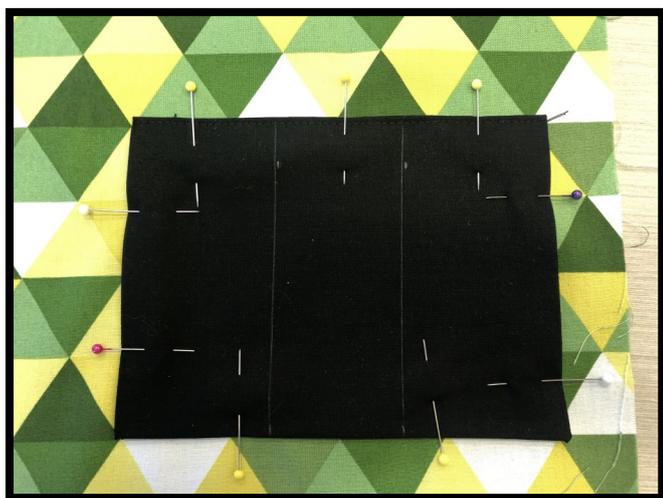

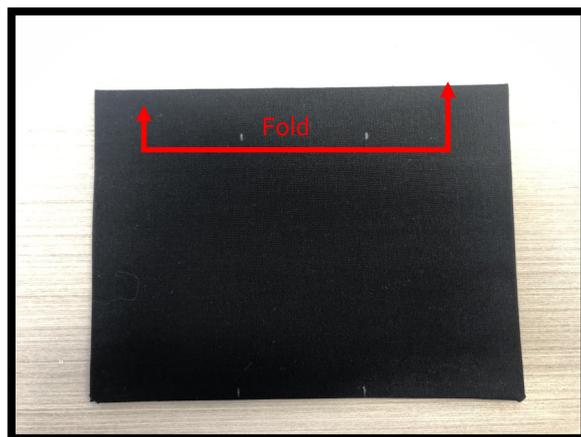

19. Take the pocket fabric (7 1/2'' x 11'' ) and press 1/2'' under to the wrong side around all sides of the rectangle. Fold the rectangle in half to enclose the raw edges. It should then measure mark 6 1/2'' x 5''.

20. From the 'Sewing Applications' menu select the Topstitching icon and stitch along the fold in black rasant.

21. Measure in 2 1/2'' from each edge and mark with chalk. This marking will be the sewing lines to separate the pocket.

22. Position the pocket 1'' from the bottom and side in the bottom corner opposite the watermelon. Pin the pocket into place.

23. Select Utility stitch #03 03 and stitch down the side seams and across the bottom of the pocket, leaving the top open to insert the cutlery. Stitch the marked line to separate the pocket into three sections.

24. Following manufactures instructions attach the fusible fleece to the backing fabric.

25. Using basting spray attach the front panel of the placemat to the fleece and pin the layers together.

26. Attach the Twin AcuFeed Flex foot and select the Dual Feed icon.

27. Select the straight stitch #03 03 Following the pattern on the fabric stitch the layers together.

28. Depending on the fabric you could crosshatch the background for a heavier quilting background. (As created in the sample)

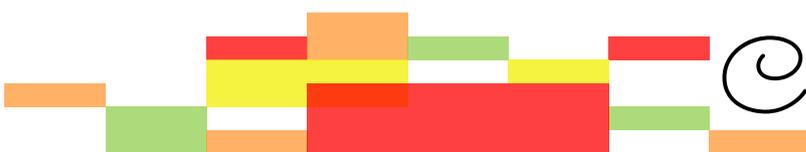

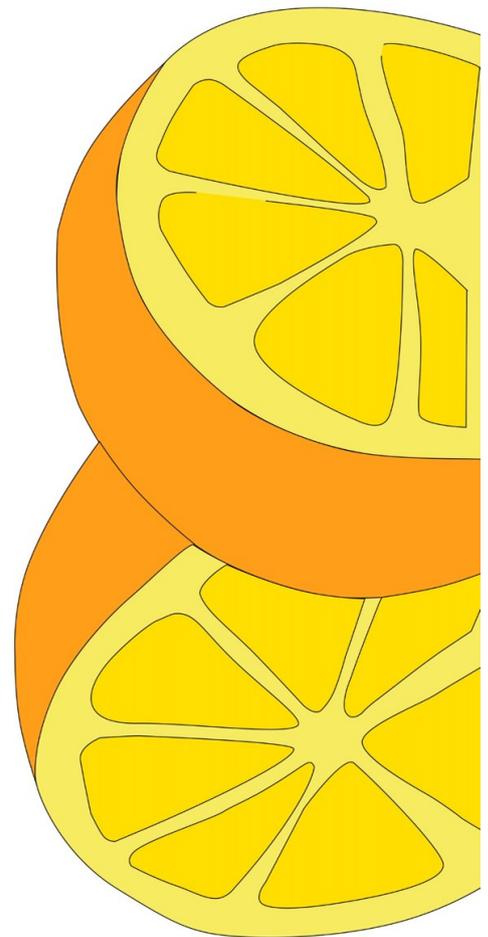

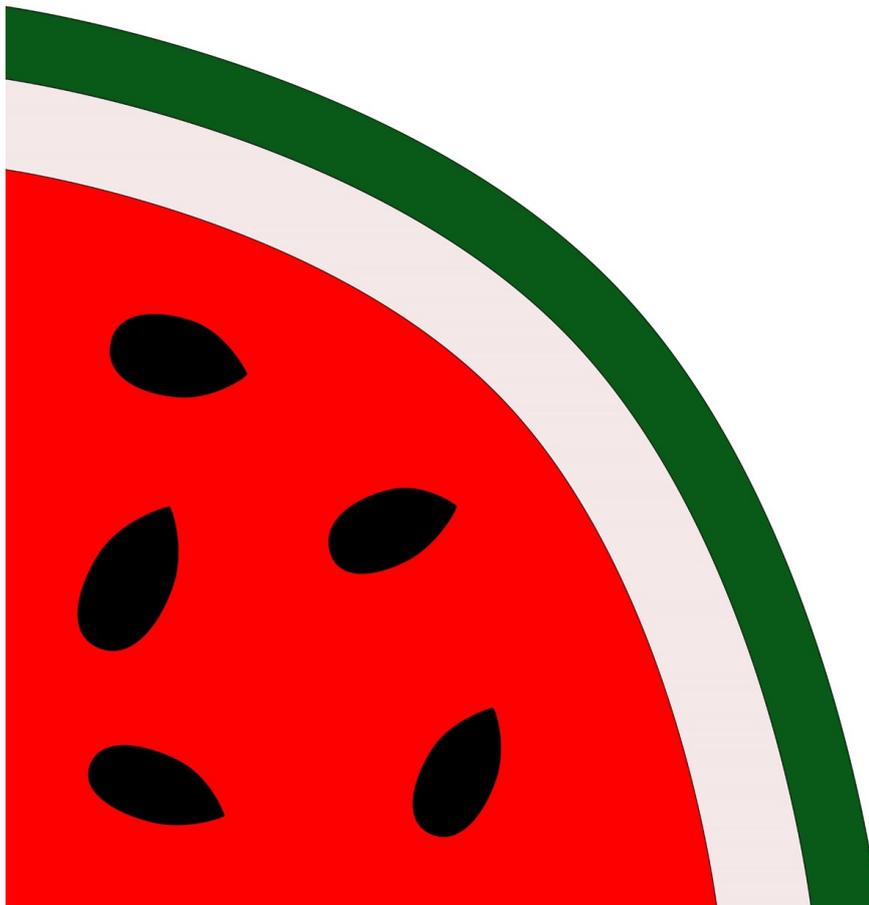

29. Trim the edges of the placemat even with the fabric.

30. Pin the binding to the front side of the placemat.
31. Attach the Single AcuFeed Flex Foot 'VD'. Select the straight stitch #03.
32. Align the edge of the foot with the edge of the placemat. Stitch around the binding. Fold the binding over to the back of the placemat and topstitch into place from the front.
33. Your placemat is now complete.
