

# JANOME

## Accessory of the Month

August 2020

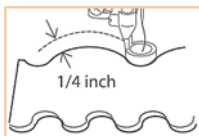

### 1/4" Ruler Foot

The 1/4" RULER FOOT was specifically designed to use with quilting rulers for ruler work.

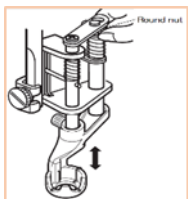

#### Foot Cup Height

The key point of the foot is the 1/4" cup height, the foot moves smoothly alongside the quilting ruler without allowing the ruler to slide over or under the foot.

When stitching with a quilt ruler, the needle drops a 1/4 inch away from the ruler to create the quilting line.

#### Adjustable Presser Foot Height

You can adjust the height of the foot to match the fabric by turning the round nut on the foot.

The V-shaped gaps in the foot greatly improve visibility.

#### Useful Marks on the Foot

Can be used to determine the centre point of the foot, helping to create accurate ruler work designs!

**BONUS** project using the 1/4 Inch Ruler Foot and our **exclusive** Janome Ruler Work Kit.
