7-piece feed dog	Extra-high presser foot lift	9 standard feet: A, E, F, F2, G, C, M, O, & R
		Optional accessories available

Stitches Galore! Plus Superior Editing Function Gives Limitless Options

300 built-in stitches, including 12 automatic sensor buttonholes, plus an English Block font and symbols. Able to program stitch combinations of up to 50 patterns with the option to mirror stitches.

The versatile stitch chart clips right onto the machine for easy viewing. Flip to read both sides of the chart, and fold to the back of the machine for simple storage.

Innovative LCD Screen with Fast Navigation and Direct Stitch Selection

Intuitive navigation allows you to quickly locate your stitch choice and setting options using the 10 direct selection buttons. The unique LCD display shows stitch pattern image and mode as well as helpful sewing information.

Superior Plus Feed System

Only Janome machines have this super stable feeding system that moves your fabric in perfect synchronization with the needle and bobbin. A seven-piece feed dog works with a flat feed mechanism, which keeps the feed dogs parallel to the needle plate whether sewing forwards or backwards.

One-Hand Style Needle Threader

Thread the needle easily without eye strain using the convenient One-Hand Needle Threader – its advanced design keeps the lever in place for easy one handed threading. Pull the thread across the threader and watch as it is automatically fed through the eye of the needle.

Fully Automatic Sensor Buttonholes

Drop your button into the sliding gauge and the foot makes the buttonhole the right size every time. Choose from 12 styles including square, rounded, keyhole, heirloom, and welted.

Wide-Angle LED Lighting

The expanded range of our LED light allows you to see more than ever before, thereby reducing eye strain and allowing you to sew longer.
