

# JANOME

## Accessory of the Month

July 2019

### PIPING FOOT

If ready made piping cord is not available or if you just want to make your own, the piping foot is ideal for the job. The piping foot (*sometimes mistakenly referred to as the cording foot*) is designed with two grooves on the underside and will hold and cover the cord when making piping tape. It can also be used for attaching piping. Maximum cord size is 5 mm.

This Accessory of the Month has a bonus project using the Piping Foot. Press the below link to download the project.
