February 2021

Concealed Zipper Foot

Good quality ready-to-wear garments will often have an invisible zip fitted. These zips are often neglected by the home dressmaker, which is a pity because they can ensure success every time. Invisible zips are suitable for all fabrics from fine silk jersey through to suit weight wools and tweeds. The key is to get the needle as close to the fastener as possible, which this foot accomplishes by slightly unrolling the zipper, just before the needle. The grooves underneath accommodate the zipper teeth and hold them in place while you stitch. Once fitted, a well sewn invisible zip will merely look like part of the seam.

This Accessory of the Month has a bonus project using the Concealed Zipper Foot.
