

JANOME

Accessory of the Month

March 2021

Free-arm Embroidery Hoop

The Janome Free-Arm Hoop allows you to embroider on items which have a small or limited area to embroider on. This hoop is the smallest in the current Janome embroidery hoop range at 100mm x 40mm.

Great for small items such as baby garments, personalising socks, sleeve cuff, pant leg, decorative buttonholes created in Artistic Digitizer software, name on a shirt/polo, etc.

When embroidering for the best result, select the hoop which is the closest to the size of your design.

This Accessory of the Month has a bonus project using the Free-arm Embroidery Hoop.
