

JANOME

Accessory of the Month

February 2022

Spool Stand

The spool stand attaches easily to the back of your Janome machine and is available in a 5 thread stand and a 2 thread stand. These spool stands are suitable for a number of Janome machines, not just our embroidery models. When using multiple colours of embroidery or sewing thread, it makes for trouble-free sewing. The stands also allow for larger spools of thread to be used, which may not fit standard spool pins.

This Accessory of the Month has a bonus embroidery project using the Spool Stand.
