

JANOME

Accessory of the Month

January 2022

Gathering Foot

This Janome foot stitches and gathers in one movement.

Use a straight stitch, set stitch length to 3 or higher, depending on the fabric. The foot creates soft gathers in lightweight fabrics using the shape of the underside of the foot; increasing the tension will also increase the amount of gather.

Full instructions are supplied on the backing card for this blister packaged foot.

This Accessory of the Month has a bonus project using the Gathering Foot.
