

# JANOME

## Accessory of the Month

June 2022

### AcuFeed Ditch Quilting Foot

A very useful addition to the sewing room when wanting a perfectly straight “stitch in the ditch” for your quilting or sewing project. The centre-position guide follows the seam line precisely, allowing perfect in-the-ditch quilting. The foot can also be used in conjunction with various needle positions for techniques, such as a perfect topstitch or under-stitching a facing in dressmaking. Janome’s AcuFeed System keeps your thickest, trickiest layers moving in perfect sync with the machine feed dogs.

This Accessory of the Month has a bonus sewing project.
