

JANOME

Accessory of the Month

August 2022

HD Roller Foot

An innovative new foot that can smoothly control materials such as leather and vinyl which are prone to catch, on a regular foot. When using this foot, the base of the needle is clearly visible, making your work easier, the roller holds the material while rotating, materials such as leather and vinyl are fed smoothly. Also, sewing curves is a breeze. Thick piping cord can also be sewn, with the needle directly beside the cord, with no interference from the foot. The piping cord can be 17mm or less in diameter. A UNIQUE Janome feature, the roller can be retracted to the left side to make a space around the needle and allow for easier threading. The roller part can be moved while pushing the screw at the top of the foot.

This Accessory of the Month has a bonus sewing project. Project download link < [Leather Purse](#) >

Part Number

202418007 (BP)
